

IT'S MORE THAN
CLEANING.

NEW

IT'S TIME SAVING.

CARA PRINT CLEAN UP

Save time and effort with the cara Print CleanUp, your reliable solution for efficiently cleaning 3D-printed dental models with ease.

Designed for versatility, it works seamlessly with multiple cleaning buckets and offers hands-free operation to clean parts directly on the build platform.

Audible and light alerts ensure you stay in control without constant monitoring.

Using isopropyl alcohol (IPA), the cara Print CleanUp delivers thorough, precise cleaning with minimal manual intervention – making it the perfect addition to your workflow.
