MITSUI CHEMICALS GROUP

General Information

Please always make sure to never rename the ".up" installation file for the cara Print Cube Firmware. If renamed, the printer will not detect the file correctly and the firmware update cannot be updated.

Please also make sure to not hide the ".up" installation file in a folder on your USB drive. It must be saved on the first level.

Below, please see a historic list of cara Print Cube Firmware versions including the release date.

cara Print Cube Firmware version	Release date
V1.2.14	2024-11-15
